5/9/67

Dear Jim,

In your files I saw the following statements or reports that quote witnesses whose recollections are of having seen people to greater or lesser degree consistent with the FBI descriptions of the men in The False Oswald:

Melocho (Cedric Rollston) 3/3/67;
Clyde Johnson;
Roland Brouillette;
Corinne Villard;
Emile Stopper (D. Ward);
Mitschke;
Exhibit 2370, in part.

Enclosed is a thermofax of an editorial in today's Washington Post. Do you have a "File For Future Fun" file?

Gave you a plug on the top a.m. show in San Fransisco area by phone this a.m. Moderator had been concerned by Phelan story when he phoned me last night. He ignored it today and we talked only about the short piece the AP moved on CIA "coverup" (thank you!) and demand for Senate investigation.
